- 1 litre

Recommended fluid

- Regular DJ Fluid
- Party Pack (4x 1litre)
- Pro Smoke Studio (DX Mix)
- Pro Smoke Super (ZR Mix)
- Pro Smoke Super (Fragranced)
- Pro Smoke High Density (SP Mix)

Fluid consumption (max.)

- 20ml/min

Fluid level sensing

- N/A

Input fluid pipe diameter

- I/D 3.5mm
- O/D 6mm

Smoke Output (max.)

- 100 cubic metres/min
- 3500 cubic feet/min

Dimensions of Machine

- 315mm x 195mm x 275mm

Dimensions when boxed

- 550mm x 290mm x 250mm

Weight (no fluid)

- 5kg

Weight (with fluid)

- 6kg

Flying system

- Standard

Drip tray

- N/A

Installation Details

- The machine should be located in a well-ventilated area with a minimum of 200mm air space around the sides and top of the machine.
- The machine should only be used on level surfaces.
- The initial smoke output of the machine is hot, so the front of the machine should be at least 1 metre from surfaces or people.

- ⌘ Never leave the machine running unattended.
- ⌘ Do not install above people's heads.
