1 – Fan Kit for iWash Led

| | |
|---------------------|---|
| ISSUE | If run continuously for more than 24 hours, there is a small possibility that the chips controlling Pan and Tilt will burn. |
| REASONS | The particular working conditions of the fixture cause the problem. |
| SOLUTION | To eliminate the issue, Coemar can provide, upon request, a cooling kit (<i>KIT133</i>). |
| AVAILABILITY | Starting from <i>April 2006</i> . |
